INTERESTS

- Traveling
- Football
- Extreme sports

WORK EXPERIENCE

Jul 2022 - Sep 2022

Summer Intern
[Luxoft Professional Romania S.R.L, Bucharest](#)
I studied the basics of the Linux operating system, Unix C programming, interprocess communication and followed engineering practices such as code review and unit testing. I developed a C/C++ client-server application on two Linux virtual machines that passes messages and files through various inter-process communication mechanisms (sockets, message queues, FTP, etc.).

Nov 2021 - Apr 2022

Engineer your future!
[Polytechnic University of Bucharest, Bucharest](#)
Admitted to the Engineer your Future program! organized by the Polytechnic University of Bucharest and Fulbright (<https://www.microderlab.upb.ro/futureengineers/>).
Courses: "Data processing and analysis", "Internet of Things systems", "Energy of the future", "Numerical simulation of electrical circuits".

Aug 2021 - Sep 2021

Magurele's science and technology summer school
Together with 3 other students, I worked for two weeks on the research topic "What can seismic sensors reveal about the behavior of a building?" My task was to make an application in Jupiter notebook in which to analyze the data transmitted by the sensors and to display them.

EDUCATION AND QUALIFICATIONS

Sep 2019 - Jun 2023

Bacalaureat diploma
[Tudor Vianu National College of Computer Science, Bucuresti](#)

Oct 2023 - Present

Faculty of Mathematics and Informatics in Bucharest
[Bucharest](#)
Cambridge English FCE
B2 level

SKILLS

C/C++

★★★★★

Python

★★★★★

Algorithm programming

★★★★★

Git

★★★★★

Data Analysis

★★★★★

English-B2

★★★★★
